QUATRE

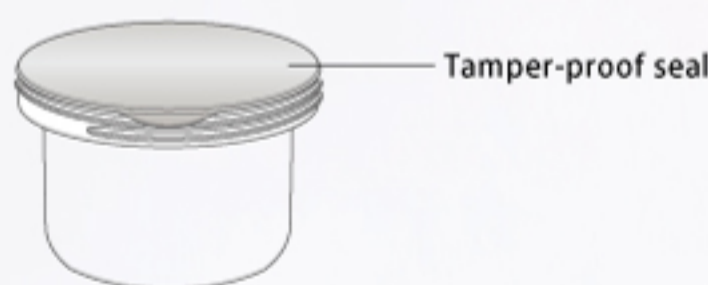

CREAM

QUATRE REFILL

- The purpose-designed replacement cap or top surface is suitable for affixing a tamper-proof seal
- The replacement cap can be removed after setting the refill in the outer part (external container), so you can replace the refill cleanly. Moreover, an inside lid and spatula can also be included, enabling replacement with brand-new ones at the same time.

* Cannot be included if the top surface is provided with a tamper-proof seal.

*Eco-friendly materials can be used only in PP.

QUATRE

- Insert-molded bodies enable different colors to be used for the inner and outer parts, allowing various color combinations.
- It can also be transferred to the inner part of the body.

MU SPATULA ♻️ / MUSH INSIDE LID ♻️

- A purpose-designed spatula can be included.
- The inside lid has an easy-to-hold with a large tab, which is carefully designed and works well even if a spatula is included.
- Both sides of the spatula are concave, making it easy to use for both right- and left-handed people.

How to remove the QUATRE refill

- Float the refill by placing a coin in the groove at the boundary between the body and the refill, or pull the refill strongly. It is easy to pull with the principle of leverage.
