

Powder container with mirror are available in two types: Perforated type and Flexible mesh type.

LULU POWDER

POWDER

- A compact powder container with an integrated inside lid.
- A powder container available in two types: Perforated type and Flexible mesh type.
- The container also has a mirror.

Flexible mesh inside lid

- A flexible mesh is used for the planar area of the inside lid. The bottom can be reached by pressing a puff against the inside lid. It eliminates the need to turn over the container to put powder on the puff, and helps adjust the amount of powder that it used.

Inside lid seal

Options

- The seal prevents the puff from being exposed to the powder before the seal is removed.
- Any image can be printed on the seal.
- The handles are shaped for easy peeling.

Product name	Overflow capacity [mL]	Method of joint	Bottle size (mm)		MATERIAL	CAP		
			H	W1		NUMBER OF HOLES IN THE INSIDE LIDS	HOLE DAIAMETER IN THE INSIDE LIDS	MATERIAL
  LULU POWDER	64.2	Screw	25.1	70.1 φ	PET	24	2 φ	ABS
						Flexible mesh inside lid		

● Please note that the specifications are subject to change.

● The capacity and bottle size figures are standard values (before decoration and in a standard color), which may differ from measurements.

● The table shows the capacity up to the inside lid (with the inside lid set).

● The height is for the jar only.

Container thickness: 35 mm, container for a dedicated box for the Courier Compact

Imported Product
