Product search Item description

① Listed product	The number of products registered in the product search. Select the button for the content you want to search, and the number of applicable products will be displayed.
② Free word	If you know the product name or genre you are looking for, you can enter it directly here. For example, to see the IBR family, search for "IBR". If you search for "IBR" alone, IBRT and IBRS will also come up in your search. To find the IBR-100A, enter "IBR-100A". If you want to find the IBR-100A, type "IBR-100A" or "IBR 100 (IBR space 100)".
③ Recommendation	It is a new product newly listed in the catalog. You can refine your search by application, category, material, etc. by holding down this button.
④ Application	A button that allows customers to easily find the container they are looking for; customers who are considering cosmetic containers for the first time or who do not know the name of the product or container. After making multiple selections within an application, you can narrow down your search by recommendation, feature, category, or material.
⑤ Feature	A button that allows customers to easily find the container they are looking for; customers who are considering cosmetic containers for the first time or who do not know the name of the product or container. After making multiple selections within an application, you can narrow down your search by recommendation, application, category, or material.
⑥ Capacity[mL]	If you know the capacity of the container you are looking for, or if you have a large number of items to search for, you can enter a value here. Containers closer to the one you want will appear in the search. If you are looking for a 55ml container, you can set the upper limit to 50ml and the lower limit to 60ml.
⑦ Category	These are the categories of cosmetic containers that we carry. ■ is the large category, and when selected, all products that fall into that category will be selected. The distinctive items in the large categories are listed in the lower part of the large categories as small categories. You can also select a category to further narrow down the search candidates in the numerous large categories. If you have already decided on the product you are looking for, it is recommended that you click on the small category first. You can select multiple sub-categories, and if you select "thick-walled bottles" or "dropper," the thick-walled bottles and dropper-compatible containers will be displayed. You can also select different categories such as "Plastic bottle and Cream jar".
⑧ Material	The following is a list of the most commonly handled materials. You can narrow down your search by selecting the material of the product you are considering.
⑨ Cross section	The cross-sectional shape of the container. If you have a preferred shape, please select it.
⑩ Molding method	Choose your desired molding method.
⑪ Other conditions	If you want to except imported, press this button to display only made in japan.
⑫ Clear conditions' button	If you want to reset selected items, please press it.
⑬ Other conditions	By pressing the button after entering the conditions, the search results list page will be displayed.
