A sharp form and a simple design that convey quality

Please visit our showroom to see the samples shown in the those with various other decorations.

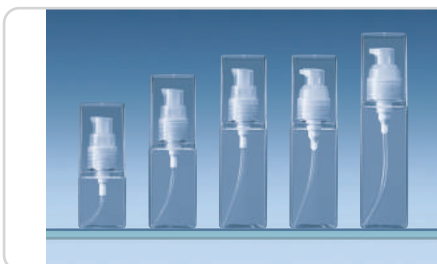

QUA (Material: PET / Forming method: Direct blow molding)

- This family is flush in perfect harmony with the purpose-designed over cap. Both body and over cap are in square pole shape.
- The over cap, made of PP, is translucent to opaque, originating from the raw material.
- There is a cut on the bottle shoulder.

SIZE 30A, 50A, 100A, 120A

QUA-OVER CAP

ROC (Material: PET / Forming method: Direct blow molding)

- This family is flush in perfect harmony with the purpose-designed over cap.
- Over caps designed for the ROC are made of PET to offer superb transparency and chemical resistance.
- There is a cut on the bottle shoulder.

SIZE 50A, 80A, 100A, 100WA, 120A

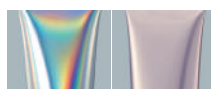

ROC-OVER CAP

TO-Oval (Material: Single layer (PE) , Multi-layer (PE+EV+PE) / Forming method: Extrusion)

Luminas Tube

- The entire surface below the shoulders can be hot-stamped.

SIZE 30 Oval, 40 Oval

Galaxy Tube

- Select this tube for an effect of a tube made of lamé fabric.

Metallic Tube

- Multi-layered tubes can be formed into a metallic model.
