

NEW DECORATION

TWIN COLOR BOTTLE

Newly added twin color bottles
molded using two colors

Half-and-half/90° twist

Half-and-half/180° twist

Two-block/90° twist

Two-block/180° twist

Stripe widths, spacing and twist are variable. Combinations of a clear (natural) color and an opaque color are highly recommended for a vivid contrast.

- * Fine control of stripe width or twist angle is not available.
- * The secondary color is affected by the primary color.
- * Please consult us for more information.

Standard monotone bottle design also available

Twin color product

SVD-200A
